Defects arising from poor installation (this includes – damage arising from sub-floor irregularities, for example excessive unevenness, loose nails or other protrusions; visual surface defects caused by previous floor coverings that should have been removed or covered, for example ceramic or bitumastic tiles, floor-boards, cushioned SPC, or by failure in the underlayment; seams ‘peaking’ or opening due to use of incorrect adhesive or seaming method; edge-to-edge shade variation; discoloration arising from installation next to a source of excessive heat); and visible trowel marks. Dissatisfaction due to improper maintenance

Problems arising from excessive moisture, alkali or hydrostatic pressure in the substrate.

Problems arising from cuts, tears, gouges, burns or other damage caused by stiletto or sharp high heels (these will damage even concrete!), sharp or hot objects dropped on the floor, dragged appliances, unprotected furniture feet, damage from pets etc.

Damage caused by chemically reactive material, carpet crocking, dye, mold, stains, spillage, burns, gouges, scratches, indentations, floods, accidents, abuse or any harsh scouring pads while buffing.

Small differences in color and or texture between the actual material or photographic images of the material and the actual flooring purchased.

Other such problems not described on the list above are also outside the scope of this warranty.
