LIMITED WARRANTY

Ecoshield SPC Floors come with a 10-year commercial warranty and a 30-year residential warranty. This Limited Warranty covers defects in materials under normal use, provided the flooring has been properly installed and maintained. Please carefully review the exclusions and conditions below to understand the scope of coverage.

WARRANTY COVERAGE

Defects in Material

This warranty covers manufacturing defects in the SPC flooring materials under normal use. If such a defect is confirmed, Ecoshield will, at its discretion, either:

- Replace the affected flooring with the same product or, if unavailable, a product of similar value and style.

EXCLUSIONS FROM COVERAGE

The following are not considered defects in material and are excluded from warranty coverage:

Improper Installation

Problems arising from improper installation, including but not limited to:

- Damage due to subfloor irregularities, such as excessive unevenness or protruding nails.
- Surface defects caused by previous flooring that was not adequately removed or covered, including ceramic tiles, bituminous tiles, floorboards, or cushioned SPC.
- Seams 'peaking' or separating due to incorrect adhesives or seaming methods.
- Edge-to-edge color variation.
- Discoloration from proximity to excessive heat sources.
- Visible trowel marks or adhesive smears.

Improper Maintenance or Cleaning

Problems caused by failure to follow recommended cleaning and maintenance procedures, including:

- Use of abrasive cleaning agents or harsh chemicals.
- Use of improper cleaning tools or equipment that damage the floor's surface.

Moisture and Environmental Issues

Damage caused by excessive moisture, flooding, spills, hydrostatic pressure, or vapor emissions from the subfloor. While Ecoshield SPC floors are waterproof, they do not serve as a waterproofing membrane, meaning liquids may still penetrate beneath the surface.

Physical and Chemical Damage

The warranty does not cover cuts, tears, gouges, burns, or dents caused by sharp objects, stiletto heels, dropped appliances, or dragging heavy items.

- Damage from unprotected furniture legs or pets.
- Chemical reactions from dyes, cleaning agents, or mold and mildew.
- Surface scratches, changes in texture, or gloss variation over time due to regular use.

Color or Texture Variations

Minor differences in color, shade, or texture between product samples, photographic images, and the installed flooring are not covered under this warranty.

Construction and Installation-Related Damage

Any damage or issues caused during construction, remodeling, or as a result of improper handling or installation of the flooring.

Unauthorized Adhesives

Use of adhesives not recommended by the manufacturer may result in installation failure and will void the warranty.

Inappropriate Use or Abusive Conditions

Damage caused by improper or abusive use of the flooring, including outdoor installation or exposure to excessive moisture, harsh chemicals, or extreme temperature changes.

CONDITIONS FOR WARRANTY CLAIMS

Proof of Purchase

A valid receipt or proof of purchase is required for all warranty claims to verify the original purchase date.

Inspection of Defective Product

Before any warranty claim can be processed, Ecoshield reserves the right to inspect the product to determine the nature of the defect. If a defect in material is confirmed, Ecoshield will determine whether the product will be replaced.

Labor and Additional Costs

Before any warranty claim can be processed, Ecoshield reserves the right to inspect the product to determine the nature of the defect. If a defect in material is confirmed, Ecoshield will determine whether the product will be replaced.

Proper Installation Required

This warranty applies only to SPC flooring that has been installed following Ecoshield's installation guidelines, including proper subfloor preparation and the use of recommended adhesives and underlayments. Installation of defective or damaged product will void the warranty.

Non-Transferable

This warranty is non-transferable and applies only to the original purchaser and the original installation site. It is not applicable if the product is resold, moved to another location, or transferred to another owner.

WARRANTY DURATION

10-YEAR WARRANTY FOR COMMERCIAL USE

Ecoshield SPC Floors are warranted for 10 years from the date of purchase for commercial applications under normal usage.

30-YEAR WARRANTY FOR RESIDENTIAL USE

For residential applications, Ecoshield SPC Floors are warranted for 30 years from the date of purchase.

LIMITATION OF WARRANTY

This Limited Warranty is provided in lieu of any other warranties, expressed or implied. Ecoshield disclaims all other warranties, including any implied warranties of merchantability or fitness for a particular purpose. In no event shall Ecoshield be liable for any incidental, special, indirect, or consequential damages arising from the purchase, use, or inability to use this product, even if Ecoshield has been advised of the possibility of such damages.
